About AMFM247 Broadcasting

AMFM247 Broadcasting Network started with a mission to give individuals a platform to speak their mind without restrictions. Within a few months AMFM247 Radio was born.

Since then the station has grown leaps and bounds offering our hosts a quality broadcasting platform that includes internet broadcasting and AM/FM frequencies throughout the US. We've built a platform to podcasts our host's shows and became an iHeart radio content provider.

We can be heard around the world and quickly became the most listened to internet station in the world. Our network has a 2 million listenership per hour potential.

In 2015 we incorporated television, giving our hosts another platform to reach out and capture a broader audience. Our public Roku channel has over **75,000 subscribers**, mixed with a popular YouTube and WorldTV channel we've become a powerful digital broadcasting solution with a potential 1 million plus viewership.

In 2016 we expanded our reach by creating WKLAP. This station is found online and on 88.3 FM in New Port Richey (South West Pasco County).

Since we've launched, some of radio's biggest hosts have called AMFM247 Broadcasting Network home, and we're proud to have them.

If you want to be a host on our network, give us a call and start living your dream and talking about what you are passionate about today
